SUMMARY

Business Information Systems graduate (Cumlaude, GPA 3.71/4.00) with nearly 2 years of hands-on Business Analyst and Systems Analyst experience across ERP implementation, requirement documentation, and stakeholder coordination. Produced BRD and FRD documentation covering 9 modules and 87+ features for a distribution management ERP, and drove requirements analysis and AS-IS/TO-BE process redesign across 27 features during a 6-month Systems Analyst internship managing 3 concurrent projects and coordinating 120+ development tasks across 2 squads. Skilled in translating business needs into functional documentation (SKPL, BRD, FRD) and validating system output through functional testing. Proficient in Excel, SQL, Google BigQuery, and Power BI/Looker Studio for data-driven reporting and dashboard development.

EDUCATION

Politeknik Negeri Malang, Malang *Aug 2022 – 2026*

Applied Bachelor in Business Information Systems (GPA 3.71/4.00) — Cumlaude

Relevant Coursework: Systems Analysis & Design, ERP, Business Process Analysis, IS Project Management, Advanced Database

EXPERIENCE

Sinvitrix Labs *Jul 2026 – Present*

Business Analyst (Remote)

- Gathered and validated business requirements for iDeas, a distribution management web application for Anugerah Group managing the flow of goods from 7 principals to the distributor and out to retail outlets.
- Translated requirements into user stories, use cases, and acceptance criteria for the development team.
- Led daily scrum 3x/week with a cross-functional group of 15+ members including customer, developers, QA, and DevOps to track progress and resolve issues.
- Produced FRD/BRD documentation covering 9 modules and 87 features, and recommended solutions to close gaps between delivered features and business requirements.

PPSDM Migas Cepu *Jan 2026 – Feb 2026*

Internship Cooperation Division

- Supported client handling and administrative processes at a government institution under the Ministry of Energy and Mineral Resources.
- Organized, managed, and updated intern data from various institutions systematically.
- Strengthened capabilities in data management, attention to detail, and professional communication within a government environment.

PT Inti Daya Energitama *Jul 2025 – Dec 2025*

Systems Analyst Intern

- Managed 3 concurrent system development projects (COD, Scylla X, Web App Reporting), breaking down requirements into actionable items for Front-End and Back-End teams.
- Drove end-to-end requirements analysis and AS-IS/TO-BE business process redesign across 27 features for the COD Alarm Warning System (PT Pupuk Indonesia Utilitas) monitoring 6 compressor and air dryer units at GGCP Gresik.
- Coordinated Scylla X delivery for a Distribution Management System with PT Pratesis, managing 120+ tasks across 2 squads through daily client scrums and pre-handoff testing.
- Realigned the Web App Reporting PRD against the live build; all three projects delivered on the established timeline.

PT Kimia Farma Tbk (via Rakamin Academy) *Feb 2025 – Mar 2025*

Data Analyst — Virtual Internship

- Performed data preprocessing and analysis on historical sales data using Google BigQuery.
- Designed and built Looker Studio dashboards visualizing Kimia Farma's business performance and growth trends from 2020 to 2023.

PROJECTS

Project Based Learning — Mamina Baby Food Web System, Politeknik Negeri Malang *Jan 2025 – Jun 2025*

System Analyst

- Designed and developed a CRUD-based web application for Mamina Baby Food to manage customer purchases.
- Created system flow diagrams and business process documentation for the client.
- Produced a manual book (user guide) for end-user onboarding and training.
- Designed and built the product landing page for the client.

Project Based Learning — IT Compensation System, Politeknik Negeri Malang *Sep 2024 – Dec 2024*

System Analyst & QA

- Gathered requirements from 3 stakeholder groups (students, lecturers, admin) and produced full system documentation — SKPL, BRD, RPP, and UML diagrams (Draw.io) — under an Agile workflow.
- Executed manual and non-functional testing (Grafana k6) to validate web-mobile integration.
- Ran UAT with end users and coordinated team workflow and technical documentation using Notion.

Project Based Learning — Customer Satisfaction Survey System, Politeknik Negeri Malang *Apr 2024 – Jun 2024*

System Analyst

- Planned and designed system architecture spanning Front-End, Database, and DSS modules.
- Created a Work Breakdown Structure (WBS) and Project Plan to keep development on schedule.

CERTIFICATIONS

- Junior Mobile Programmer — BNSP (2026)
- TOEIC Listening & Reading Test — ETS, Score 605 (2026)
- Learning SAP MM (Materials Management) — LinkedIn Learning (2026)
- Business Transformation Management Solutions — SAP Learning (2026)
- SAP S/4HANA Essential Training — LinkedIn Learning (2026)
- Data Structures Using Python — Udemy (2025)

SKILLS & TOOLS

Technical Skills: Requirement Gathering, Data Accuracy & Validation, Documentation & Administration, Vendor/Client Coordination, Manual & Non-Functional Testing

Tools: Notion, UML Tools, Figma/FigmaJam, Microsoft Excel, Power BI, Looker Studio, Grafana k6

Languages (Programming): HTML, CSS, JavaScript, Python, SQL, PHP, Laravel, Flutter, Dart

Soft Skills: Attention to Detail, Time Management, Cross-Functional Collaboration, Problem Solving, Adaptability

Language Proficiency: Indonesian (Native), English (TOEIC 605 – Intermediate)

ORGANIZATIONAL EXPERIENCE

Volunteer, Dies Natalis Politeknik Negeri Malang (JTI as Host) *2025*

Contributed to the execution of the university's anniversary celebration, assisting with logistics and technical coordination within the Department of Information Technology as the host.

Committee Volunteer, Senat Dosen Politeknik Negeri Malang *2025*

Involved in the committee for the Faculty Senate event, supporting administrative preparation, participant coordination, and ensuring the smooth execution of the institution-level formal event.

Volunteer, Polinema Basketball *2024*

Participated as a volunteer in the campus basketball tournament, supporting field coordination and event operations.
